ONE of the most considerable relics of the war is about to be removed from the storchouses of the Ordnance Department It consists of nearly two hundred tons of lead, offered for sale by the authority of the Secretary of War. This lead was purchased early in 1864, when the stock of the article in the market seemed likely to run short, while the consumption by our armies was enormous. Mr. Stanton, judging rightly that a metal so indispensable for warlike purposes ought to be kept on hand in quantities that would place the supply of amunition beyond the fluc tuations of trade, caused a large quantity to be advertised for and purchased of the owest, bisider. But as there is now no SCORSION FOR HEEPING ANY SUCH STOCK IN THE PRESENCES IT IS TO BE DISPOSED OF

not only against the policy of annexing San Domingo, but especially against the mode of negotiating the treaty. Mr. Sunner will personally attack General Babcock and others parties who in various ways have been connected with the proceedings. One person who has seen the speech says it is terrible in its personal demunication. There is considerable feel. There is considerable feeling aroused among the Senators, and many assert that Mr. Sumner means open ostility to the Administration

THE market for Government bonds con nues unsettled, the business being smal or both investment and speculative ac The demand for bonds which isually attends the disbursement of one dividends it is expected will be deterred, to some extent, this year, until after Con-gress adjourns, there still being a vague apprehension of unwise legislation on the Currency and Funding measures. There is a report current also that Congress may ot be able to adjourn on the 15th of July not be able to adjourn on the 16th of July. Such a report is allke damaging to confidence and the public credit, and it is sincerely hoped may not prove well founded. The delay is said to be with the Senate, in reference to which the just rebuke is made that if the Senate would address itself diligently to work, and forego irrelevant speech-making, it might accom-plish all that is required of it in the inter-val between this and the 15th of July. The effect of any further extension of the session would be mischievous to credit and to business.—Philadelphia Ledger.

A NEW DISCOVERY!! PHALON

Salvation for the Hair. VATER ! WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!

For Restoring to Gra Hair its Original Color. PHALON'S "VITALL differs ut-

terly from all the liair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy mayer, requires no shaking, imparks no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scale; yet it reproduces in gray han the natural color that time or sickness may have bleached out of it.

Phalon's Vitalia

is for one sole purpose, that of reproducing, with absolute certainty, the natural solor of the hair. It is not intended as a daily dressing norfor removing scurf or landruff; nor for cu-ring barness; nor for stimulating the growth of the hair .-These objects may be accomplished after the color has been fixed with the Vitalia, by Pha-lon's Chemical Hair Invigorator.

The Vitalize a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications, according to the depth of shade required. Solv by all druggists.
